

Dear members and friends.

Sixteen years of Nepalmed and one and a half years since the devastating earthquake have passed! There is a

lot to report. The reconstruction of houses and buildings in the area is progressing at different speeds. While many of the houses in Amppipal have already been renovated due to our support, the destruction is still evident at the Gosainkund lakes north of Kathmandu. There the situation has not changed since the natural disaster. The Indian border blockade ended in February 2016. There has been no Nepalese government, which lasted longer than a few months. The adoption of last year's controversial constitution has been equally sluggish. At least the implementation of a universal health insurance system is on its way.

We have quickly been able to make good use of the enormous amount of donations we received last year. Amppipal hospital is once again expanding. The regional hospital in Gorkha has had to wait for the start of its renovation. Gorkha Radio however is on air again with a new building and technology. The Gorkha Heritage Trail has been inaugurated to boost tourism and income in this poor district. It is in the programmes of several tour operators.

We have taken two health posts under our wings in the Solu district : Maidane, which is already up and running and Phera, which needs to be completely rebuilt.

Th X-ray department was officially opened at Kirtipur Hospital during our 6th members trip.

Our sister organization Nepalmed Nepal is working well, too, a good sign for our collaborative projects.

Thank you for your support!

I wish you a Merry Christmas and a peaceful New Year 2017. Arne Drews

#### Amppial Hospital

The ambulance jeep was handed over in March, the shell construction of the new nurses accommodation was inaugurated in October, both financed by the Saxonian student initiative "genialsozial". The completion of the building is scheduled for spring 2017. The intensive care unit is completely demolished and the functional rooms are relocated. The foundation for the new building has been laid,

from Rotary Bad Arolsen the mobile x-ray device could be replaced. A trauma surgery table, implants and large steriliser where also purchased. Dr. Kshitiz Paudel continues to receive support from us and is working enthusiastically. He gets help from visiting Western specialists including ENT D. Leupold, Surgeon D. Wilker, R. Kalisch, W. Merbold, S. Zinke, Paediatric R. Löw, Anaesthesia W. Kluge, H. Ivatt, Dental S. Kel-

financed by JICA from Japan. The treatment of the poor patients is still financed by Ursula Ochs' Direkthilfe Nepal. Disinfectant was bought with donations from Prof. Wilker. The children's ward received some colourful furniture. Telemedicine was established with the help of the Model Hospital in Kathmandu. With donations

ler, P. Roth, Internal Medicine D. Cooper, L. Brockhaus.

A pension model is currently discussed in order to secure the future of the ageing permanent staff.

Villages around Amppipal: Our building subsidies have been working well and many farmhouses could be renovated. The Mirkot Health Post was re-

Please donate so that we can continue our support for Nepal:

#### Grande International Hospital

Nepalmed sponsored a defibrillator and handed over several vaccuummatresses that were donated by SEG Leisnig. Dr. S. Karki is working on an ambulance system with cars and helicopters. S. and A. Drews as well as R. Hoeltzel performed a pulmonary function training course with the spirometers. donated by us. The 16 participants have asked for a revision course in 2017.

#### Lung study at the university

The Professional Association of Saxonian Pneumologists finances a study on lung function, measurement of NO in the exhaled air and IgE in the blood, in order to study chronic respiratory diseases. Ass.-Prof. S. Shrestha from the Kathmandu Medical College Teaching Hospital has examined the first 170 patients. He noted that measuring NO in the exhaled air is unique for Nepal.

By selling the home lages we were able to provide fimade briquettes, a new source of nancial support for the project. income is provided to the people.

Now over 1,000 people have a stable water supply again.

To raise awareness we had booths at the Bergfilmnacht (Mountain film night) at Steinbruch Gaudlitzberg, the Bergsichten Filmfestival and the Globetrotter Days in Dresden. We thank all the people manning the booths. Our documentary "In the Land of Tents" screened twice at the Mountain Film Festival Dresden.

Thanks to I. Windisch for the support of Dr. Nijina Tamrakar during her three-month internship in Germany. The media published numerous reports. Newspapers in Hamburg and Itzehoe (Cent-behind-the dot), Parchim, Haldensleben, Chemnitzer Freie Presse, Leipziger Volkszeitung, MDR TV, Saxonian Medical Journal among others have issued articles about the activities of Nepalmed.

Numerous colleagues and friends have given lectures, donated money and organized events. Examples are: U. Ochs with the Direkthilfe Nepal, U. Bolender with flea markets organized by her 4th grade students from Oberursel, donations in a Pickle jar from Rhön, G. Matzel at the DGIIN-Congress, the Reiser family in Haldensleben, lectures during the Nepal NGO meeting in Cologne, a picture exhibition in E. Schöne's physiotherapy praxis in Markranstädt, TEVA Challenge in Berlin, Rotary Bad Arolsen, Christmas market concert of the Saxonian Brass Orchestra and the wonderful concert of the Schola Cantorum Leipzig in Wechselburg. It is impossible to list all events organized to support our voluntary work. Therefore: a big thank you to everybody, who has supported us.

Many thanks to all the students who took donations to Nepal and wrote reports during their traineeships. Thank you Burga Marx for the guidance of the many students. Dr. S. Keller has once again managed the dental care. We express our gratitude to K. Meyer and S. Drews of the Nepalmed office and to F. Winkler and the tax office U. Holzenleiter for their help in all accounting matters.

We once again offer a project trip to Nepal in April. If you are interested please email to nepalmed@gmx.de

### Our next annual meeting takes place in Leipzig on 20 May 2017. We wish you a peaceful and healthy New Year 2017 !
