31.12.2022

Wir bedanken uns bei allen Spendern, bei allen Experten und Einsatzkräften, bei allen Jubilaren und Hochzeitspaaren und den Teams von Nepalmed in Deutschland, Nepal und UK.

Mit vereinten Kräften wurde in 2022 wieder viel bewegt. Der [Jahresbericht](#) zeigt einiges davon auf.

We would like to thank all the donors, all the experts and emergency personnel, all the jubilarians and wedding couples and the Nepalmed teams in Germany, Nepal and the UK.

By joining forces, a lot was achieved again in 2022. The [annual report](#) shows some of this.

| Earth on the same axis, where it was a year before | All the plans should be followed on the following year |
| It did not complaint assigned task, fulfilled chores | They're coming with faded hopes, and anticipated fear |
| However, people pissed with so called lawmakers | We have the legacy, got to use brain for our selection |
| Unfulfilled promises, couldn't become mover & shaker | Got fooled once, let use the conscience in every election |
| Dreams were snatched from eyes off the generals | We can advance, as we are equipped with everything |
| Irony of truth, the legislators sheltering criminals | 'United we rule, divided we fall,' all of us need to sing |
| Year ended, optimistic about following will shine | Year ended, cheerful about coming one to be best in line |
| Let me break free, I am whining with glass of a wine | Feeling an adrenaline, I am whining with glass of a wine |
| | |
| We were the fool to believe morale less hanky panky | The new year to bring new hopes, and new expectations |
| Didn't use mind, disguised by hope spread so swanky | Looking to give head-start with approachable perceptions |
| Leaders became best models of worst use of authority | We are on the verge of getting what we all have expected |
| Looked like situation was better than this complexity | Should turn the fortunes turtle considered to be ill-fated |
| Failures bluffing to unlock ongoing political deadlock | Every time the new year brings glories with high hopes |
| With fools like us, power hungry keep trying their luck | Even big races can be achieved running steadily in lopes |
| Year ended, hopeful about the coming one gets all fine | On the eve of new year one should always get good dine |
| I must cut loose now, I am whining with glass of a wine | Brimming with optimism, not whining with glass of a wine |
